

# Meek, Boylan and Bleau JFK Assassination Research Project- Timeline survey report March 23 2024

## Introduction

To know more about the research project, the researchers and results of the first survey, please follow this link: [https://jfkchokeholds.com/wp-content/uploads/2024/03/SurvearticleandresultsMotive2.pdf#new\\_tab](https://jfkchokeholds.com/wp-content/uploads/2024/03/SurvearticleandresultsMotive2.pdf#new_tab)

## Survey results on the topic of timeline:

- 1) Participation: a mass email in March 2024 to 620 recipients generated 148 responses. One person asked to be removed from the email list. 51 of the respondents wrote comments in the open-ended section at the end of the survey encouraging respondents to write down insights. Still others sent emails with suggestions and comments. One criticism that arose was that for certain questions the recipient would have liked to have had an *other* option or *do not know*. This will be addressed in future surveys. 52% of the respondents indicated that they had attended more than 3 JFK Assassination conferences. 30% responded that they had attended between 1 and 3 conferences. We can conclude that participation rates and respondent engagement in the subject matter are strong.

How many JFK assassination conferences have you attended?

- 2) The following three questions show quite a bit of disparity by respondents on timelines. On the question of consensus to eliminate JFK: His handling of the missile crisis (18%), objectives of smoothing relations with Cuba (9%) and Russia (15%) and the decision to not engage in Vietnam (18%) somewhat overlap timing-wise and is where over 62% of respondents are situated. This tends to dovetail with the motive survey. Nearly 17% pointed to the failed Bay of Pigs as key timing wise.

When did those at the top of the hierarchy behind Kennedy's assassination come to a consensus that he needed to be removed as president?

144 réponses

3) The 8 months that followed the beginning of the Missile Crisis is where the bulk of the respondents feel that the logistics of the assassination were put in place, early 1963 being the most important.

When did the assassination logistical planners begin implementing a plan to eliminate JFK?

144 réponses

4) Respondents clearly believe there were plots to assassinate JFK before November 22, 1963, nearly 50% of whom believe these took place during the months preceding the Dallas motorcade.

### Attempts to assassinate JFK by the same group who planned his elimination began

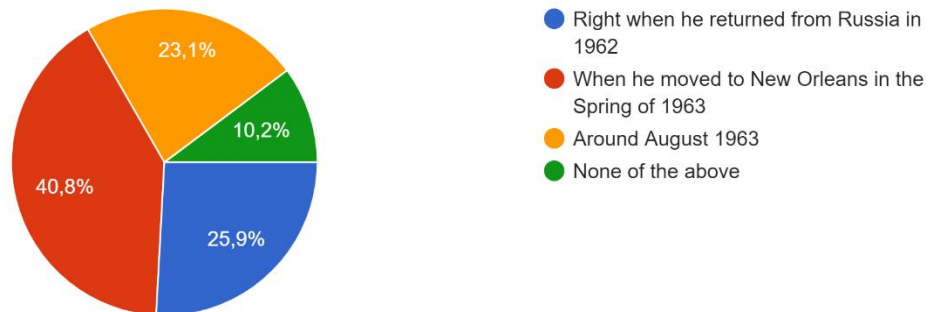

146 réponses

5) 41% of respondents believe Oswald began being set up as a patsy when he moved to New Orleans in the Spring of 1963. 23% point to August 1963. This is when his FPCC activities became more visible. A full 26% feel that the frame-up began on his return from Russia.

### Steps to set up Oswald as a patsy began

6) Some 65% of respondents feel that Ruby was given his tasks within the two months that preceded the assassination.

7) The timing of the training of the assassination teams is evenly divided between the Summer and Spring of 1963, each receiving nearly 30% of the responses.

The training of the assassination team(s) took place as early

8) The arrival of the hit squads in Dallas took place between two days and a week preceding the motorcade according to 62% of the respondents.

### Most of the ground forces around the assassination arrived in Dallas

142 réponses

### 9) Opinions on when the hit teams were in position are quite varied.

### 10) Over 50% of the respondents feel the decision to go the lone nut route was taken well before the assassination.

### The decision to go the lone nut route took place

11) The answers to the next three questions, show how surprised perpetrators must have been when the lone nut scenario was favored.

### Those who sanctioned the removal of Kennedy expected the blame to fall on Castro

### Those who planned the hit expected the blame to fall on Castro

12) We reformulated a question on motive from the first survey by adding the CIA as an organization of interest in the assassination. Rogue CIA members remained prime suspects, followed by the joint chiefs of staff of that era.

Revised question from previous survey: Which group that was motivated to assassinate JFK was the most significant for ensuring that the plot would go into effect?

145 réponses

12) The final question singles out Oswald as the only *suspect* to have no motive (unless monetary) to kill JFK. Fewer than 3 % of respondents indicated that Oswald disliked JFK.

Comment section:

Strong movement and planning by rogue CIA members and military members of national command structure very active just after missiles of October, 1962 but only after LBJ gave the green light did it begin its final unstoppable progress towards completion. Although, it may have also happened without LBJ sanction and support as Deep State members knew LBJ would have to go along and insure coverup just as they knew J Edgar Hoover would do the same.

Barry Jones and Gil Jesus are researchers who are quite credible.

Greater clarity in recent years; one task is to understand better CIA's role in tactical execution vs. role in disinformation, "smoke-screening" of plot

I believe the decision to assassinate JFK was made IN THE IMMEDIATE AFTERMATH of the Cuban Missile Crisis (not "in and around," which was the imprecise choice you presented). The decision was exacerbated and reinforced by JFK's clear refusal to contemplate a nuclear first strike against the USSR; but I also believe that the proximate cause of the birth of the plot was his resolution of the Cuban Missile Crisis through diplomacy instead of invasion (military confrontation). The two subjects are interrelated.

It's funny, I decided to reread the Warren Report. It amazes me how poorly it is written. They used words like probably, possibly, in the Commission's opinion. From a legal standpoint it reads like a joke.

This question: "Revised question from previous survey: Which group that was motivated to assassinate JFK was the most significant for ensuring that the plot would go into effect?" is too narrow to only be one answer.

We may never find out the instigators or brains but we have small groups of Anti Kennedy from his own Vice President, Chiefs of Staff, Presidents protection of Secret Service, CIA, FBI, Mafia, Whitehouse Chiefs of Staff, US Air Force high Command on Kennedys dead body flight home, US Navy personnel and Autopsy Naval personnel, Dallas Mafia and Dallas Police Department , Agents who dug up Oswald's body to change things and of Course James Atherton, J. Edgar

Hoover, Earl Warren, The Payne Family , Cuban Exiles, George H.W. Bush and Gerald Ford and of course certain members of the Democrats and Republican Party who continue to this day to stop the last of the withheld files released and Texas Business men too.

Not possible to answer some of these questions. How do we know when the hit men arrived, or what they thought? Similarly, Oswald said he liked Kennedy. But how do we know he meant it? Lots of tough questions, given how little I know with certainty about the JFK!

Where is Army intelligence in this list of perpetrators? Where are the rogues from other agencies besides the CIA? This question is as flawed as last time. Why is "do not know" rarely asked? You are forcing us to speculate. Just as bad, you are not providing us clear questions. And questions about the arrival time of hit squads? Garbage in, garbage out. I'm very disappointed. You guys are more intelligent than this.

LBJ was mastermind behind murder of JFK with his cronies Dulles and Hoover whom JFK had fired. LBJ knew he WASN'T going to be on 1964 ticket and Newsweek Time etc had magazine ready to publish 11-22-63 his corruption and he would have been imprisoned. Everyone knows what the headlines were INSTEAD!!!

I am basing my answer to when the hit team set up on Julia Ann Mercer noticing the truck, two men and rifle at the grassy knoll at 11AM. No idea when Oswald was chosen as the Patsy. New Orleans could have been just setting him up for a future assignment in Cuba. Were other potential patsies (i.e., Vallee) set up with doubles before time as LHO was?

Gerrard Colby and Charlotte Dennett, Thy Will Be Done: The Conquest of the Amazon: Nelson Rockefeller and Evangelism in the Age of Oil, 1994, presents the panoply of forces at work in the post-war world. Fletcher Prouty suggests the important figures who decided without a specific declaration.

The assassination of JFK would never have happened if LBJ and his associates had been prosecuted for the murder of Henry Marshall starting in summer of 1961.

Could you tell me what this survey is for? Thank you!

This was better designed in my opinion than the last one.

Difficult questions for one answer, like the revised question. I assume joint chiefs felt JFK was a traitor for Bay of Pigs; "failed" Cuban crisis; and his secret detente communications with Nikita and Fidel-Peace for the World. Other questions about when ground forces were ready in Dealey. These top pros knew where and when they were going to be in their respective positions. One or two could have been there more than my 15 minutes on average. e.g., a rooftop/Records Bldg. Just too- large-a-scale black op to be Rogue CIA. Well planned, but still so powerful to deal with the many screw ups that took place.

The decision for a planned withdrawal from Viet Nam may have been the last straw, even though the BOP and Cuban Missile Crisis were enough to motivate Kennedy's enemies to eliminate him. Also, difficult to say precisely the timing of plans to assassinate or framing of Oswald. A few questions could have more than one answer.

My answers are based on research I'm doing as a former aide to Robert F. Kennedy.

Regarding the revised question: Which "Plot"? Murder Plot or Cover-Up?

On the revised question of who was most significant, I see it as a joint Military/intelligence (government) working together, joined at the hip.

Look for the activities of RUFUS TAYLOR and the ONI who like the CIA - if not worse - stonewalled access to their records <https://jfkcountercoup.blogspot.com/search?q=oni+records&max-results=20&by-date=true> ONI [OFFICE OF NAVAL INTELLIGENCE] RECORDS REVISITED by Bill Kelly JFK Countercoup [http://jfkcountercoup.blogspot.com/2013/02/oni-records-revisited\\_12.html](http://jfkcountercoup.blogspot.com/2013/02/oni-records-revisited_12.html)

Training of assassination teams question is confusing because different operatives could have been trained at different times and it was unclear if you meant training specifically for this JFK mission. Thanks!! Liked this survey more than the last one. 👍

Always has been my opinion that while many had their reasons, there was only one who stood to benefit completely (and then foolishly allow himself to be "trapped") by the "hierarchy" in its ability to control him after the coup. LBJ. Not his "circle" but just him. His "circle" helped but I will never stop believing it was him working with unseen "hierarchy" + rogue elements of the following: CIA/Mossad, Joint Chiefs (especially LeMay), Secret Service, FBI, Cuban exiles & mafia. All those together, then and since, control and/or disposed of evidence, witnesses if necessary.

Anything by John Newman, James Di Eugenio, Harold Weisberg, Peter Dale Scott, Mark Lane, Fletcher Prouty, etc.

The military and the Texas (industrial/political) royalty were about equally important.

The second question needs to allow for more than one option - JFK was not killed as a result of one man or group - the following are likely some of the combinations that allowed the assassination to take place so read & consider - I am revising my book on J. Edgar Hoover & that is why this is a little long - here is a little preview. A combination of Mob Influences (Giancana, Hoffa, & Roselli,... involved in plots to kill Castro - all murdered in the mid 70's during the period of Church Com. & HSCA as well as Jack Ruby's involvement & testimony about his phone conversations in the Fall of 1963. The Extreme Right & Racists - JFK's Civil Rights policies such as the use of troops during the integration of U. of Alabama & Miss. & JFK economic policies such as Medicare - as well as elements of Big Business, Bankers, Oil, Anti-Conservation ("Battling Wall Street" - Don Gibson). Certain Military Leaders - Russian policies of JFK - especially Nuclear Test Ban Treaty - Cuban policies of JFK - Bay of Pigs & Missile Crisis as well as possible Vietnam withdrawal & autopsy at Bethesda resulting in Military security & control. CIA - JFK's Cuban policies & his threats to dismantle the agency & firing of Dulles, Bissell, Cabell & William Harvey & Guy Bannister as well as possible involvement of Cord Meyer, David Morales & Edward Lansdale,... PROBABLY THE MOST IMPORTANT COMBINATIONS LBJ & Certain Elements of the SS - responsible for Texas trip & taking over Air Force & no autopsy in Dallas - LBJ was going to jail as Bobby Baker stated in his book "Wheeling & Dealing" for numerous crimes - Ruby's later comments & letters about LBJ's involvement. Head of White House SS Gerald Behn stated in early November "we will never go to the Trade Mart" & gets his first vacation in 3 years & not in Dallas. Pierre Salinger - liaison between SS & the press's role in the motorcade & not in Texas - he is instead at the Honolulu Conference with half of the cabinet as well as the numerous documented changes in the motorcade. SS Agent Elmer Moore (Ruby's bodyguard during his

testimony) stated that "JFK was a traitor" to Jim Goucheaur (who passed away this week 3/13 in Milwaukee). Also - The Cooperation Between LBJ & J. Edgar Hoover In The Coverup Cannot Be Ignored - Both Stood To Lose Their Positions Of Power - Lets Not Forget Jealousy Of The Kennedy's & The Future With RFK & Teddy & Eventually JFK Jr.. Revised question: I think there was a mix of individuals from the Military-Industrial-Intelligence complex.

I think JFK was viewed with a jaundiced eye before getting elected. The forces that removed him were gathering momentum throughout his term in office.

I would like to elaborate on many of these questions, feel free to contact me and we can set something up.

For the "Oswald..." question, there should be an option for "Does not matter wither way."

Thanks for all your work! Everything I have studied involves minutia in DP, over a three minute span. I don't know much about "Who?" or "Why" ... I am mostly focused on "How?" To me, multiple shooters equals conspiracy. I don't think the general public has firmly crossed this bridge as yet. Thanks again! - concerned Canadian citizen.

Treason for My Daily Bread, Again the act was planned many years in advance. Planning goes back to the 1930s. Valediction: The Resurrection and The Mad Bishops...

The plot to kill JFK originated with Allen Dulles by the time JFK was nominated, included LBJ's planned succession, was supposed to have been concluded in Dallas (not Bethesda) and remains among the most closely guarded secrets within the US government to this day. David Lifton uncovered a great deal of this plot and died before he could publish his latest realizations & findings, but his estate has all of his files & writings intact. In the last 10 years of his life, I helped him refine his understanding of the plot and the most probable sequence of events that occurred between 11/21/63 and 11/23/63.

these are very hard to answer. Despite 35 years of interest on my part, much of "the plan" is still a mystery. Maybe John Newman et al. can nail this? I think it likely the top brass military sanctioned it hoping for war with Cuba (Operation Northwoods?). They couldn't "risk" another Kennedy term in office.

I didn't answer questions for which my answer is "I don't know/don't have a strong opinion  
No more!

Added to OIL Barons are companies making money off military industrial complex.

Coup d'état. Dulles, Le May likely involved high level. Use of mafia and Cuban exiles to point away from Dulles and military in case lone nut theory collapsed. Mutual interests against JFK and Bobby were overwhelming: CIA; mafia; Cuban exiles; Joint Chiefs; J Edgar Hoover; far right; oilmen. Assassination was response to JFK performance on Cuba. JFK took hard line in TV debates on Castro but ended up guaranteeing him by abandoning exiles at Bay of Pigs. This sent message of weakness to Soviets who then built Berlin Wall as knee no real response then sent nuclear missiles to Cuba, attempt to win Cold War and redress nuclear balance. JFK weakness emboldened Soviets. Kennedy secret deal to trade Turkey and Italy missiles was not known to Joint Chiefs or U.S. intelligence until March '63 when they were removed, and JFK had weakened US nuclear superiority. Around the same time as missiles removed, within days, Oswald supposedly ordered pistol and rifle.

JFK's failure to invade Cuba (BoP and CMC) followed by his back-channel effort at detente with Castro infuriated the hard-core zealots within the CIA. Add to that his perceived soft-hand approach with the Soviets and his growing reluctance to go to war in Vietnam--all of which led to a snowball of dismay and anger that culminated with Kennedy's murder in Dallas. His Pax Americana speech at American University in June '63 was the tipping point.

The role of Lyndon Johnson in the JFK assassination is vastly underestimated by the JFK research community. LBJ orchestrated and MICROMANAGED the JFK just as he MICOMANAGED every other crime in his life. LBJ, D.H. Byrd, Ed Clark used Gen. Edward Lansdale and some CIA-affiliated anti-Castro Cuban operatives to murder JFK. They all had their own reasons. LBJ's personal reasons were paramount, his pals it was money and power and for the actual shooters of JFK it was Cuba policy. For Lansdale, it was rage over his dismissal and the Diem coup and especially the murder of his friend Diem on 11/2/1963.

The fact that you're not mentioning Israel means whoever wrote this survey is obviously controlled opposition. Read Final Judgment. It's correct.

Great questions! Thanks for including me.

Keep up your great work, Paul!

In some cases, more than one answer could be ticked but the survey does not allow that.
